4. The rejection of claims 13-19 and 22 under 35 U.S.C. 102(e) as being anticipated by Harrison et al. as evidenced by Peterson et al. is hereby withdrawn in response to applicants arguments.
5. The rejection of claim 38 under 35 U.S.C. 102(e) as being anticipated by Harrison et al. as evidenced by Peterson et al. is hereby withdrawn as it was improperly applied.

Statement of Reasons for Allowance

7. The following is an examiner's statement of reasons for allowance:

The claims are allowable over the cited prior art because the prior art does not teach, disclose nor make obvious a method of treating endometriosis by administering a composition comprising a β -adrenergic agonist and a pharmaceutically acceptable bioadhesive carrier. The closest prior art is Harrison et al. (6,197,327) and Peterson et al. (6,207,696). Together both patents teach a composition comprising β -adrenergic agonists and biocompatible excipients for the treatment of dysmenorrhea. Dysmenorrhea is defined as the pain associated with endometriosis. Endometriosis is a condition that is characterized by the presence of functioning ectopic endometrial glands and stroma outside the uterine cavity. Therefore, the prior art does not teach not treating the condition of endometriosis, but treating the pain associated with endometriosis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

8. Claims 13-22 and 38-50 are allowed.
